

INEOS | Inovyn

Innovators in the face of adversity

INOVYN
AWARDS
2022

These are **challenging** times...

... but our focus on **innovation** is **stronger than ever**

2019

2022

INEOS is becoming a **consumer brand**

INOVYN's **new logo** marks our
alignment with this change

INEOS
Inovyn

Hydrogen supply

€ 2 billion

investment in hydrogen supply for electrolysis

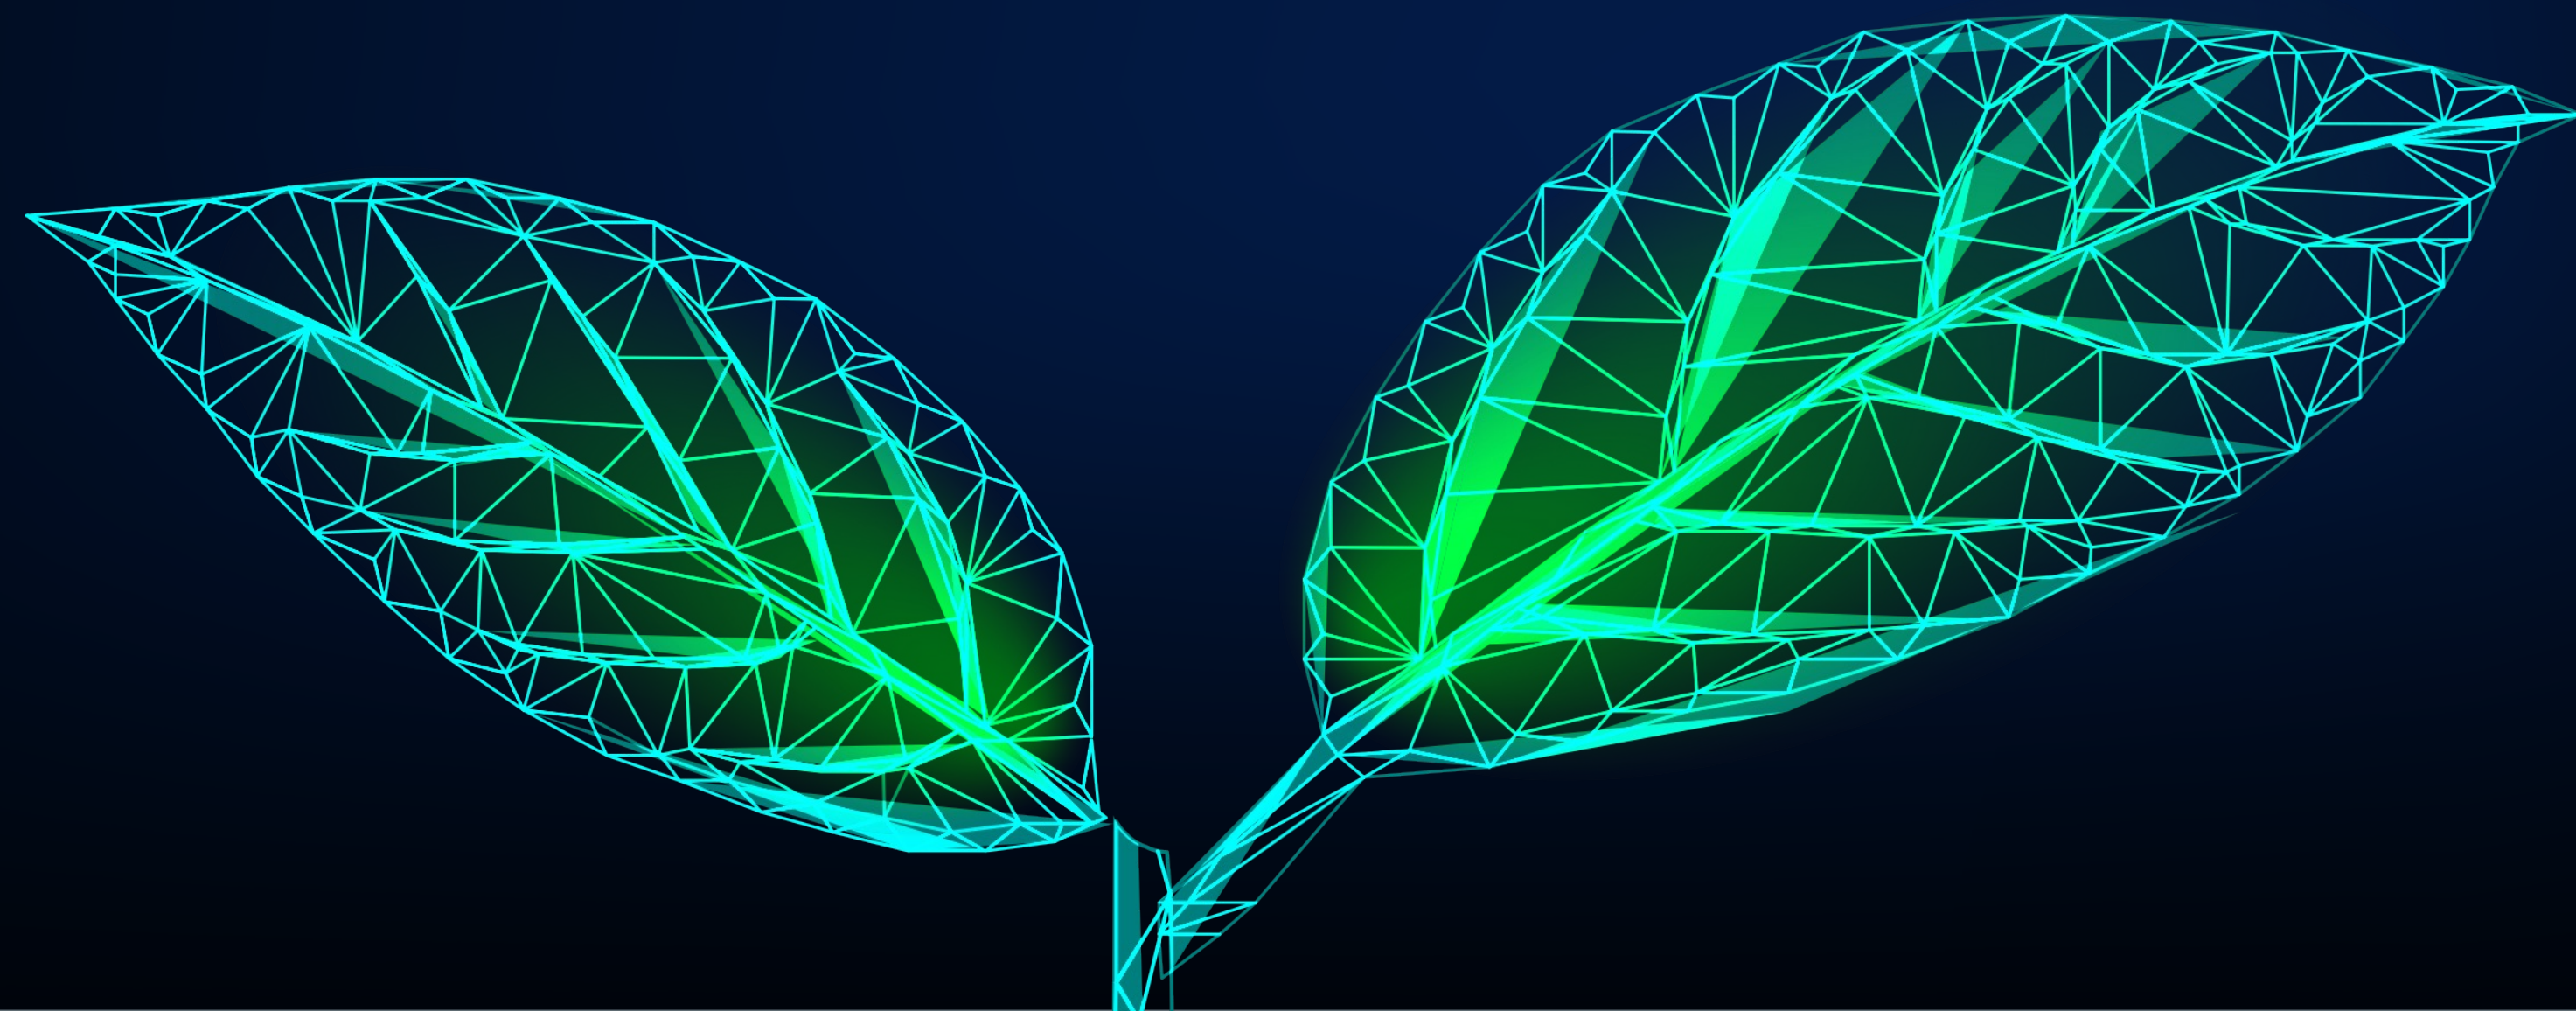

20 MW

of water electrolysis capacity in Norway with our Aquarius project

1 ambition

Become a leader in the hydrogen sector

Our sustainability **ambitions** reach
beyond **carbon reductions...**

Responsible production

7

life-saving rules

20

safety principles

89%

reduction in OSHA
recordables
over the past 5 years

700+

customer safety visits

INEOS

INOVYN
AWARDS
2022

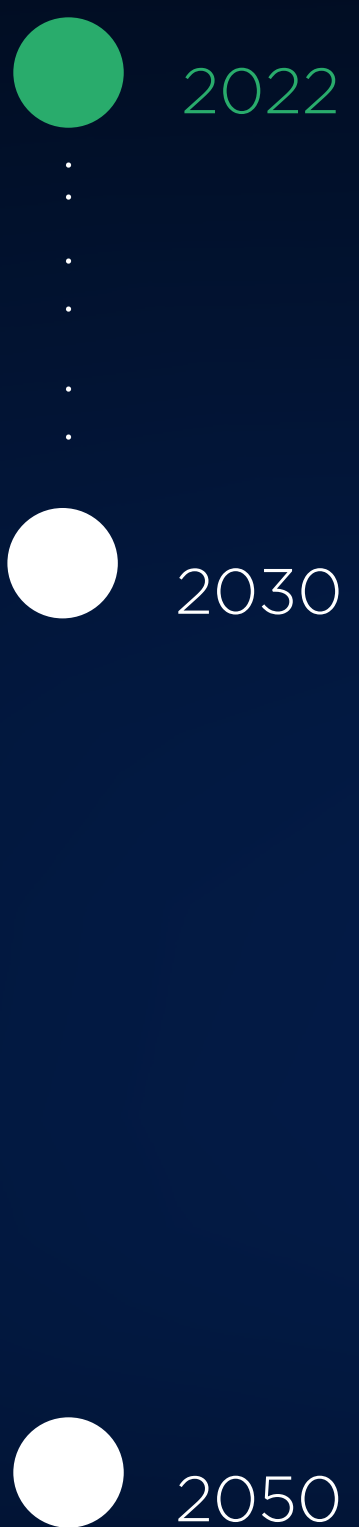

Carbon Neutrality

INEOS
Inovyn

33%
Reduction in our CO2 emissions

Net-zero
CO2 emissions

How?

- electrification
- fuel switching
- efficiency improvements
- carbon offsetting

Rafnes
Reducing steam consumption by 80,000 t/year

Jemeppe
Combined heat and power plant upgrade with a hydrogen burner

Tavaux
Reduced steam consumption by 360,000 t/year.

Electra
World's first electrical furnace

INOVYN
AWARDS
2022

Circularity

810 KT

recycled in 2021 through VinylPlus 2030
Pathways Initiative

What's next?

Project Circle

Recyclates for
customers

Recycling
solutions for
legacy PVC

INEOS
Inovyn

INOVYN
AWARDS
2022

All INOVYN PVC is
**fully
recyclable**

Facilitating the
green transition

Ensuring **end
user safety**

Value to **society**

Designing the
**materials of the
future**

Preventing
**misinformed
legislation**

Providing new
**infrastructures
and technologies**

Let's take
this journey
together
